

# New! Personal Protection Equipment CASHIER GUARDS

series **CG1**

Our Cashier Guards are the perfect personal protection barrier for any counter or desktop installation. Made from clear polycarbonate, these barriers are sold as a quick assembly kit. **Available in 2 different face sizes: 23"W x 28"H & 31"W x 28"H**

Each kit comes with a face panel, two side uprights and twelve panel clips with VHB PS tape (very high bond pressure sensitive) adhesive to adhere the panels permanently together and attach the guard to a flat table surface for permanent, yet non-invasive securing.

Once attached to a counter or other smooth surface, the guard will ensure a safe work area. Assembly instructions are provided with the kit. The entire guard can be assembled in just a few minutes.

These guards are available in standard and premium models. Standard is made from 1/8" thick polycarbonate and premium is manufactured from 1/4" polycarbonate. Low maintenance, just clean the surface with any window or disinfecting product to keep your guard clear and free of bacteria.

## Printed Themed Options!

You can purchase our non-messaged cashier guards, or you can choose from other unique designs to better fit your environment. We have unique imaged designs available for retail, industrial, grocery, salon, and our Stay Smart - Stay Apart additional line of products.
